

**Title: CMM OPERATOR/PROGRAMMER**

**Company: 3 POINTS AVIATION – MISSISSAUGA FACILITY**

**3 Points Aviation is an industry leader in Aircraft component sales, manufacturing and repair and overhaul. Headquartered in the West Royalty Business Park in Charlottetown, we have worked tirelessly to earn a reputation that consistently exceeds our client's expectations. Our company, through focused customer service, has become a leader in the supply and distribution of new and re-conditioned aircraft parts.**

**JOB DESCRIPTION:**

**This position will report to the Quality Assurance Manager at our Mississauga Facility. This individual will support quality and in-house engineers in programming and inspection of airplane component parts to ensure they are meeting specifications.**

**RESPONSIBILITIES:**

- **Program Complex parts using CMM Calypso software**
- **Perform daily calibration**
- **Inspection of products using CMM in accordance with 3Points quality system procedures**
- **Maintain AS9100/ISO quality control standards by verifying dimensions of machined parts according to drawings using gauges and various measuring & testing equipment.**
- **Report any deviations out of tolerances to QA Manager.**
- **Complete and maintain inspection records (Communicate effectively with Engineering department members on technical issues relating to drawings issues, file transfers, design changes, continuous improvement processes and Engineering changes. FAI, C of C, etc.).**
- **Participate in continuous improvement teams as required.**
- **Perform other required duties as directed by the QAM**

**REQUIRED SKILLS:**

- **CMM Programming experience required.**
- **Aerospace / AS9100 manufacturing experience is preferred**
- **Ability to read blueprint drawings and specifications**
- **Results-oriented**
- **Good verbal and written communication skills in English**
- **Common sense/Analytical thinking**
- **Interpersonal skills, ability to work with numerous other departments**
- **Demonstrates strong time management skills with the ability to effectively coordinate multiple projects.**
- **Ability to work and delivery results within tight deadlines**

**EXPERIENCE:**

- 2 years minimum experience using Calypso CMM Software
- 2 – 3 years Quality Control
- 2 – 3 years CMM Programming
- Aerospace / AS9100 manufacturing experience is preferred

**EDUCATION:**

- Post-secondary education in a related field.
- Certificate in Quality Assurance/Quality Technician preferred
